

# Real Results for the Complete Horse

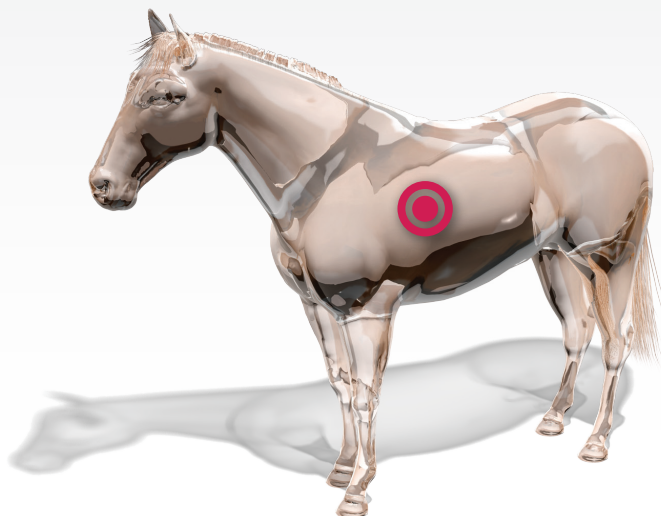

## Gastric Support

- Platinum Gastric Support™

### Start with a Solid Foundation

Platinum Performance® Equine can help maintain a properly functioning gastrointestinal system with Omega-3 fatty acids and antioxidants, in addition to vitamins and minerals key to digestive health. Studies show that supplementing with Platinum Performance® Equine can increase digestive efficiency and a horse's ability to properly utilize calories.

## Platinum Gastric Support™

### Helps Maintain Gastric Health

#### Gastric Health Benefits:

Platinum Gastric Support™ contains Fermaid®Ease 187 (dried *Lactobacillus delbrueckii* and its fermentation products) to help maintain gastric health by supporting healthy levels of gastric acid and intestinal proteins.

- Helps maintain healthy levels of gastric acid
- Supports a healthy epithelium of the stomach
- Helps maintain overall condition by supporting a healthy appetite and digestion

#### Digestive Health Benefits:

Platinum Gastric Support™ also contains *Saccharomyces c. boulardii* 1079, a daily probiotic, to support healthy digestion.

- Supports a balance of intestinal microflora for healthy digestive function

#### Recommendations for use

##### To support gastric health in foals at time of weaning:

Platinum Gastric Support™ (7.5g) twice daily for 30 days.

##### To support gastric health during times of stress and training:

Platinum Gastric Support™ (15g\*) twice daily.

*\*This amount can be doubled for 2 weeks prior to anticipated stressful events.*

**Ingredients** Fermaid®Ease 187 (dried *Lactobacillus delbrueckii* and its fermentation products), Lactose-Free Whey Protein Concentrate, *Saccharomyces c. boulardii* 1079.
